The event is free and can be accessed [here](#)

A webinar on dance, birds, communities, the value of European projects, connectivity, grief, trust, artistic development, core, interactivity, proximity, life, ...

THE BIRD EXPERIENCE

A collaborative community dance project with dancers and choreographers from Greece, Hungary, Spain, Sweden and Denmark

Co-funded by
the European Union

With the bird as host, citizens of all ages are invited into a strong metaphoric space, where they intuitively can express themselves spontaneously in a visual poetic and choreographic language embodied by the bird. In the shape of the bird grief can be carried. Looked into the eyes. Surrounded. Embraced. Fought against. Made peace with.

The bird experience is a collaboration between 5 european artists groups and their local communities: NextDoor Project (DK), The Symptoms / Tünet Együttes (HU), Northern Sustainable Futures (SE), Zita Dance company / Zita Omega Sygchronou Chorou (GR) and Asociación Compañía Danza Vinculados (E). - as well as CKI (DK).

The birds are created by puppeteer Anette Asp Christensen

**Northern
Sustainable
Futures.**
